VENUS FLYTRAP

Use some of the sounds to complete the words in the text.

The Venus flytrap is a plant f__nd only in the USA. It is kn__n as a carniv__ous plant, as it catches insects and digests them in __der to survive. They live in poor s__l which lacks the nitrogen the plants n__d to survive. The “t__th” in a flytraps “m__th” are actually made from a leaf. The plant uses them to trap insects inside.
