What we teach

At ABC Pathways, we focus on the 5 main skills of learning a language.

How we teach

We use the 5 main skills as the framework for our classes where each learner is immersed in the English language.

Each lesson contains a range of different materials and learning methods to ensure that all of our learners are engaged and supported.

We dedicate time to encourage our learners to discuss what they are learning and to adapt it to their daily lives and experiences.

Learning a new language isn't easy so we do everything we can to make sure it's enjoyable and interesting for our learners.

iLearn Course Progression

At ABC, we have implemented a learning path from K1 and beyond.

Our full time learners show consistent progression and achievement.

Learners that have enrolled in a three-year iLearn course finish with a level equivalent to a Band 1 Primary School.

With our study system, learners are able to excel.

iLearn Support

We understand that some of our learners may need additional support.

To ensure that all of our learners are able to achieve, we regularly assess their learning.

Most of our learners follow the **regular course progression**.

Some are able to **early promote**.

Others may require **enrichment** to help them progress and continue learning alongside their peers.

We will contact you directly, in the rare situation, that your child could benefit from early promotion or enrichment.

Enrichment is free of charge and can be held as either:

1:1 Classes Holiday courses Additional classes of the same level

Within 1-3 months, most learners are able to catch up with their peers.

Questions

At the end of the PTA, there will be a question and answer session.

If you have anymore questions regarding your child's learning and development at the end of the session, please feel free to contact us at the centre.
